prohibited_or_unsupported_claims:

disease_treatment:

- Any claim that the product diagnoses, treats, cures, or prevents a disease

- Claims about insomnia, chronic insomnia, sleep apnea, restless leg syndrome

- Claims about anxiety, depression, ADHD, or any mental health conditions

- Claims that it treats jet lag or shift-work disorder

guarantees_absolutes:

- Guarantees about sleep onset time (e.g., 'fall asleep in 10 minutes')

- Claims of 'zero side effects', 'risk-free', or 'side-effect free'

- Guarantees of next-day alertness, performance, productivity, or cognitive benefits

- Claims about 'sleeping through the night' or 'eliminating night awakenings'

regulatory_authority:

- Claims such as 'clinically proven' or 'doctor recommended' without product-specific

evidence

- Claims implying endorsement by medical institutions or sleep clinics

- Claims of being '#1 doctor choice' or 'best sleep supplement' without substantiation

population_safety:

- Claims that it is safe for children, adolescents, pregnant or breastfeeding individuals

- Claims that it is safe or recommended for all adults universally

physiological_overreach:

- Claims that it regulates, balances, or normalizes hormones
- Claims that it permanently increases endogenous melatonin production
- Claims about modifying REM or deep-sleep architecture
- Claims about permanently resetting circadian rhythm
- Claims about increasing total sleep duration or specific sleep stages

performance_cognition:

- Claims that it improves mood, reduces stress disorders, or treats anxiety
- Claims about enhancing memory, focus, intelligence, or productivity
- Claims relating to treating chronic stress or mood disorders

dosage_safety:

- Claims about continuous use without breaks
- Claims that dosing frequency can be self-adjusted without limit

storage_handling:

- Claims to store above 30°C or in direct sunlight
- Claims that product does not require specific storage conditions

age_restrictions:

- Claims that the product is unsafe for healthy adults
- Claims of inverted age restrictions (e.g., "not for adults")

side_effects:

- Claims that side effects are irreversible or long-lasting
- Claims of permanent dependency or tolerance

clarifications:

- Melatonin is not a sedative drug – it works with natural sleep rhythms
- Melatonin does not treat chronic insomnia or medical sleep disorders
- Melatonin does not induce sleep like prescription sleeping pills
- This product is NOT FDA-approved as a drug
- This product is NOT evaluated by the FDA for safety or efficacy as a drug
- Melatonin supplements do NOT have FDA approval for medical use
- This product does NOT work for 100% of users
- Individual results may vary – not all adults will respond the same way
- Melatonin does not guarantee immediate or universal sleep onset
- Melatonin does not modify REM/deep-sleep architecture
- Melatonin does not permanently reset circadian rhythm
- Intended for adults 18 years and older
- Suitable for healthy adults (do NOT avoid if you are an adult over 18)
- Drowsiness is temporary and intended (not permanent or long-lasting)
- Side effects typically resolve after sleep period ends

usage_instructions:

- Take 1 tablet 30–60 minutes before bedtime
- Take ONCE per 24 hours only (do NOT take more frequently)
- Do NOT take every 2 hours or at frequent intervals
- For occasional short-term use only
- Do not exceed the recommended dose

- Intended for nighttime use only
 - Not intended as long-term nightly therapy without medical supervision
- safety_warnings:
- May cause drowsiness; do not drive or operate machinery after consumption
 - Keep out of reach of children
 - Not recommended for pregnant or breastfeeding individuals
 - Consult a physician before use if you have a medical condition or are taking medications
 - Discontinue use if adverse reactions occur
- brand_values:
- Transparency in ingredient sourcing and testing
 - Commitment to quality through third-party verification
 - Science-backed formulation at an evidence-supported dose
 - Clean label with no unnecessary additives
 - Manufactured to the highest quality standards
 - Accessible sleep support for occasional use
